

DIEPPE AQUATIC PARK

DIEPPE, NB • 2014

The vision for the Dieppe Aquatic Park was to create a family experience - 'a day at the beach'. The project includes a splash pad with separate zones for young children and youth, large umbrellas for shaded seating, rock seating, play area, picnic area, and washroom/change pavilion. The aquatic features operate with a recycling water system. BDA provided design construction supervision and commissioning service.
